### **1. PRODUCTS SUBJECT TO THIS WARRANTY**

SupaVent™ & TurboBeam™ Ventilator products (**Products**) are supplied in the below configurations:

- A. SupaVent™ – a wind driven natural ventilator designed to exhaust heat & moisture from the roof space, without the use of electrical energy.
- B. TurboBeam™ – a wind driven natural ventilator designed to exhaust heat & provide natural light to the roof space or storage area, without the use of electrical energy.

### **2. WARRANTY COVERAGE:**

CSR Building Products Ltd, trading as CSR Bradford, warrants that the Products meet the applicable requirements of AS/NZS AS4740 (where stated) and will remain free from manufacturing defects for the following periods, from the date of purchase:

a period of 15 years for the body of the Product.

This warranty is applicable to Products purchased for use in Class 1 and 10a buildings for roof ventilation in non-cyclonic & non-BAL regions.

### **3. CONDITIONS OF WARRANTY:**

Subject to the following terms and conditions set out below:

- A. This product must be installed in a dry location and sealed against water ingress.
- B. Installation must be in accordance with the Bradford Ventilation Residential Turbine Ventilator Installation Instructions.
- C. Replacement outside air must be provided via evenly distributed openings such as eave vents positioned to facilitate crossflow ventilation and help the powered ventilator to work more effectively and efficiently.
- D. The rotating head of this product must be installed horizontally and the adjustment of the varipitch and base flashing is critical to achieve this orientation (refer to the installation guide for details)
- E. All new and retrofitted constructions must follow the guidance of installation locations and the recommended ventilation levels of ventilators & eaves vents specified in Bradford's Technical documents.
